CONTENTS

Volume 18

Number 1, February, 1972

S. KAKIMOTO, K. KAWAI, S. YASHIMA and Y. SASAKI: Induction of anaerobic glucose dissimilation of *Lactobacillus buchneri* by acetate. 1
B. JOHRI: Cyathin production by species of *Cyathus*. 11
K. KOMATSU, K. HANEDA, A. HIRANO, R. KODAIRA and H. OHSAWA: Accumulation of nucleic acid-related substances by microorganisms. III. Derivation of guanosine-producing mutants from an adenine auxotroph of a *Bacillus* strain.... 19
M. WATANUKI, K. OISHI, K. AIDA and T. UEMURA: Oxidative phosphorylation in bacteria. I. Oxidative phosphorylation of gram-positive and gram-negative bacteria. 29
T. KAZAHAYA, K. KAWAI, S. YASHIMA and Y. SASAKI: Aerobic dissimilation of glucose by heterolactic bacteria. III. Aldehyde dehydrogenase and alcohol dehydrogenase of *Leuconostoc mesenteroides*. 43
K. KITAMURA, T. KANEKO and Y. YAMAMOTO: Lysis of viable yeast cells by enzymes of *Arthrobacter luteus*. I. Isolation of lytic strain and studies on its lytic activity. 57

Short Communications

Y. FUJITA, K. OISHI and K. AIDA: Hemagglutination by culture broth of actinomycetes and aspergillus. 73
Y. FUJITA, K. OISHI and K. AIDA: Aggregation of dissociated sea urchin and sponge cells by culture fluids of microorganisms having hemagglutination activity. 77

Number 2, April, 1972

M. UEDA and A. TAKAGI: Rhapidosomes in *Clostridium botulinum*. 81
K. KITAHARA and T. TOYOTA: Auto-spheroplastization and cell-permeation in *Sporolactobacillus inulinus*. 99
K. UCHIDA and K. MOGI: Cellular fatty acid spectra of *Pediococcus* species in relation to their taxonomy. 109
A. WATANABE and Y. YAMAMOTO: The fatty acid composition of plasmodium and sporangium of true slime molds. 131
H. OKAZAKI and H. IIZUKA: A salt-requiring sulfate-reducing bacterium isolated from Antarctica. 135
M.S. CHENOUDA: Chemical composition of the cell walls of carotenogenesis and non-carotenogenesis forms of (−) strain of *Blakeslea trispora*..... 143
M.S. CHENOUDA: Lipid and phospholipid composition of non-pigmented and pigmented hyphal cell walls of (−) strain of *Blakeslea trispora*. 155
K. TANAKA and S.T. CHANG: Cytoplasmic vesicles in the growing hyphae of the basidiomycete, *Volvariella volvacea*..... 165

Number 3, June, 1972

M.S. CHENOUDA and E.W. JWANNY: Utilization of hydrocarbons by microorganisms. Lipids and phospholipids of *Candida lipolytica* grown on hexadecane and on glucose media. 181
K. HOSONO, K. AIDA and T. UEMURA: Effect of pantothenic acid on respiratory activity of aerobically grown *Saccharomyces cerevisiae*. 189
S. NAGAI, Y. NISHIZAWA, P.A. DOIN and S. AIBA: Energy difference in metabolism between glucose and acetate in chemostat culture of *Azotobacter vinelandii*..... 201
Y. TSAY and F. HANAOKA: Transient effect of exogenous adenine on germination of *Aspergillus oryzae* conidia. 209
A. ISHIDA and S. HINO: Effect of oxygen on cytochrome pattern and heme synthesis in *Escherichia coli*. 225
S. UEDA and R.L. EARLE: Microflora of activated sludge. 239
V.I. GOLUBEV and I.P. BAB'EVA: *Debaryomyces formicarius* sp. n. and *Debaryomyces cantarellii* associated with the ants of the group *Formica rufa* L. 249

Number 4, August 1972

O. LOSTIA, A. CARERE and I. SPADA-SERMONTI: Transformation in *Bacillus subtilis*. I. An apparatus for the continuous deproteinization of nucleic acid solutions. ... 255
O. LOSTIA, A. CARERE, R. LOPEZ, G. and C. ROSSI: II. Influence of a protein fraction bound to DNA on the transforming activity. 263
R. HATTORI, T. HATTORI and C. FURUSAKA: Growth of bacteria on the surface of anion-exchange resin. I. Experiment with batch culture..... 271
R. HATTORI, T. HATTORI and C. FURUSAKA: II. Electron microscopic observation of adsorbed cells growing on resin surface by carbon replica method. 285
T. OKI, K. KOUNO, A. KITAI and A. OZAKI: New yeasts capable of assimilating methanol..... 295
T. SATO, K. IZAKI and H. TAKAHASHI: Recovery of cells of *Escherichia coli* from injury induced by sodium chloride. 307

Number 5, October 1972

R. HATTORI: Growth of *Escherichia coli* on the surface of an anion-exchange resin in continuous flow system. 319
S. KURODA and T. ARAI: Spectrophotometric characterization of the genus *Actinomyces*. 331
A.F. ABDEL-FATTAH and N.M. EL-HAWWARY: Purification and proteolytic action of milk-clotting enzyme produced by *Penicillium citrinum*. 341
T. NAKASE, Y. FUKAZAWA and T. TSUCHIYA: A comparative study on two forms of *Candida tropicalis* (CAST.) BERKHOUT..... 349
K. KUBOTA, K. KAGEYAMA, I. MAEYASHIKI, K. YAMADA and S. OKUMURA: Fermentative production of L-serine. Production of L-serine from glycine by *Corynebacterium glycinophilum* nov. sp..... 365
T. NAKASE: A comparative study on *Pichia dispora* and *Pichia saitoi*. 377

Number 6, December, 1972

S. SHIMADA, H. KURAISHI and K. AIDA: Unbalanced growth death of yeast due to pantothenate deficiency..... 383
K. YAMADA and K. KOMAGATA: Taxonomic studies on coryneform bacteria. IV. Morphological, cultural, biochemical, and physiological characteristics. 399
K. YAMADA and K. KOMAGATA: Taxonomic studies on coryneform bacteria. V. Classification of coryneform bacteria. 417
K. FURUYA and S. UDAGAWA: Coprophilous pyrenomycetes from Japan. I. 433
K. FURUYA and S. UDAGAWA: Coprophilous pyrenomycetes from Japan. II. 455

Short Communication

M. WATANUKI and K. AIDA: Significance of quinones in the classification of bacteria. 469
